

## How to develop stained glass for your home.

The first step might be to explore family history, achievements or personal interests to create a theme. You might wish to develop a decorative pattern, a floral design or even an abstract. Where privacy is called for, the surface of the glass can be obscuring through use of a textured glass. If an elegant atmosphere is sought, beveled glass or fine imported antique glass can be used. In any event, you must always keep the location and surroundings in mind. When a theme is decided upon, designers and craftsman begin to commit it to glass. Here you and the designer can collaborate and share ideas. You'll enjoy the challenge and reward of bringing your stained glass visions into a beautiful reality. Stained glass is affordable. Experience in producing stained glass enables Franklin Art Glass to work within your budget. Economies can be achieved in the design process that will enable you to enjoy your individual tailored piece at an agreeable cost.

*Our studio, located in historic German Village*

Recognized as one of the world's largest and highly respected creators of stained glass, Franklin Art Glass Studios offers a wealth of experience and dedication to excellence. We have been serving the community for over 86 years, and are a proven leader in creating residential, commercial, and religious leaded glass artwork.

At Franklin Art Glass, we are confident that you will find the creation of a glass piece a rewarding experience. You will enjoy visiting our studio and participating in the creative process.
